INNOVATIVE FINANCING FOR A GREENER ECONOMY

Register before March 15, 2010

The Business Development Bank of Canada (BDC) is pleased to host ADFIAP's 33rd annual meeting under the theme "Innovative financing for a greener economy". The global momentum is clear: governments, investors and consumers are becoming more insistent that economic development be environmentally and socially sustainable. The biggest pressure is to reduce the unchecked use of carbon.

Equally clear is that organizations are seizing new opportunities to meet environmental and human development goals: new technologies, new ways of operating and new business models. To adapt and innovate, they will need financing. Green financing is ceasing to be a boutique affair. Mainstream banks are expanding their expertise and services to meet the demand. Development banks should be no exception.

Come to ADFIAP's 33rd Annual Meeting in Vancouver to learn more!

Facts about VANCOUVER

Recognized as one of the world's most liveable cities, Vancouver has one of the mildest climates in Canada with temperatures averaging around 3 degrees Celsius in January and 18 degrees Celsius in July. It is part of Metro Vancouver, the third largest metropolitan area in Canada.

Vancouver has hosted many international conferences and events, including the 1976 United Nations Conference on Human Settlements and the 1986 World Exposition on Transportation and Communication. In 2010, Vancouver will welcome the world for the 2010 Olympic and Paralympic Winter Games, February 12–28.
